

VASAVI KANIKICHARLA

Bengaluru, Karnataka | 7022962551 | kanikicharla.vasavi@gmail.com | <https://github.com/V2035> | www.linkedin.com/in/vasavi-kanikicharla

CAREER OBJECTIVE

Enthusiastic and hardworking Computer Science student with knowledge of programming, databases, web technologies, and emerging AI tools. Seeking a position where I can apply my technical skills, learn modern technologies, and contribute effectively to organizational success.

EDUCATION

- **B.Tech — Computer Science & Engineering** 2023 – 2027
Reva University, Bengaluru, Karnataka | Consistent academic performance with a CGPA of 8.09
- **Intermediate (Science) — 11th & 12th Grade** 2021 – 2023
Narayana | 65%
- **10th Grade** 2021
Narayana | 87.2%

INTERNSHIP

Agentic AI Internship – Innomatics Research Labs: Feb 2026 to May 2026

Completed a firsthand internship program focused on real-world AI problem-solving and modern development practices. Developed AI-driven solutions using Python, FastAPI, LangChain, RAG, AI Agents, and Prompt Engineering, gaining practical experience in designing intelligent workflows.

PROJECTS

Hybrid Detection System (Blockchain) April 2026

- Developed a hybrid pump-and-dump detection system for cryptocurrency markets using Python.
- Combined rule-based techniques with machine learning algorithms to identify suspicious trading activities.
- Analyzed market data to detect manipulation patterns and improve detection accuracy.

Customer Churn Analysis (Big Data) Sep 2025

- Developed a customer churn prediction system using Python and Logistic Regression to identify customers at risk of attrition.
- Performed data cleaning, feature engineering, and exploratory data analysis on customer datasets.
- Generated insights into churn factors to support customer retention and business decision-making.

Netflix and The Office Analysis (Data Analytics) Feb 2025

- Analyzed guest star appearances in The Office alongside Netflix content trends using Python and data visualization techniques.
- Conducted data preprocessing, text analysis, and temporal trend analysis to identify viewing and content patterns.
- Created visualizations and reports to derive insights into audience engagement and content strategy.

SKILLS

- **Programming Languages:** Python, Java, HTML
- **Databases:** MySQL, PostgreSQL
- **Data Analytics:** Data Analysis, Data Visualization, Big Data
- **Cloud Computing:** Cloud Fundamentals, Virtualization
- **Tools:** Jupyter Notebook, Google Colab, MS Office
- **Platforms:** Salesforce, Informatica
- **Design & Animation:** Blender, Canva
- **Leadership, Time Management, Adaptability**

CERTIFICATION

- Artificial Intelligence | Oracle, IBM
- Cloud Computing | IBM
- Data Science | IBM, Oracle
- Structured Query Language | Udemy
- Young professional | TCS ION
- Full Stack Development | MIMO

TECHNICAL & EXTRACURRICULAR ACTIVITIES

- Participated in IEEE, SIH, Red Hat, Codeathon, and Haccverse hackathons.
- Member of GLUG and Robotics Club.
- Basketball player with strong teamwork
- Skilled in sketching and creative artwork.
